

**Transmission Service**

The automobile transmission is probably the scariest part of your vehicle. You've heard all the horror stories about the cost and headaches associated with transmission problems and dread the day when it might happen to you. You don't have to comb the junkyards for a used transmission.

**Remanufacturing Your Transmission**

To remanufacture your transmission wearable parts are automatically replaced. All core material is closely inspected and checked against original equipment specifications for correct dimensional tolerances. Replacement parts are new and made in the same production process as original equipment. Testing is performed to manufacturer specifications and original production standards.

Why pay outrageous franchise transmission shop prices when a rebuilt transmission from **Penfield Service Center** can save you up to 25%. A transmission cooler can extend the life and improve the shift quality of your automatic transmission unit.

Let **Penfield Service Center** put all of the updates in your remanufactured transmission to prevent future failures and improve quality.

**Don't miss our FREE transmission inspection!**
